

EM-P189 can be used to convert serial RX/TX to Rs-485
 This card can be connected for EM- products which supports
 Modbus communication. Device includes the link cable
 compatible for EM- product.

TECHNICAL DATA

Operating voltage 4.5-6V (powered with link cable)
 Idle current consumption 5mA
 Rs-485 Terminal resistor 120 ohm in socket, if needed
 Rs-485 Line bias resistors 10kohm
 Link cable Micro-Match to Micro-Match 25cm
 Weight with cable 28g
